PLN 3.0 with Cornerstone On Demand
The Development of the PLN

• The Student Success Task Force called for increased focus on professional development

• Six summits with over 500 participants weighed in on what they wanted from a professional development clearinghouse.

• The Professional Learning Network 1.0, launched in April 2016.
Redevelopment of PLN

• A need was identified to clarify the connection between the Professional Learning Network and IEPI’s other professional development opportunities.

• IEPI also began the preliminary development of the Applied Solution Kit (ASK), hosted on the Professional Learning Network.

• These changes led to the Professional Learning Network 2.0
Professional Learning Network 2.0

ASK: Applied Solution Kit

PLN 3.0
with Cornerstone On Demand
PLN Quick Review:

➔ PLN Launched: April 2016
➔ Created to facilitate collaboration
➔ Users: 11,000+
➔ Free Training: Lynda, Skillsoft
➔ Hundreds of System-Wide Resources
➔ Applied Solution Kits
Ongoing feedback from the field has indicated a number of directions for both immediate and long-term improvements, leading to the next evolution—Professional Learning Network 3.0.

Immediate Improvements include:
- An improved and better integrated Applied Solution Kit
- Significantly more robust community module
- More substantive and engaging resources specific to the California Community Colleges
• The systemwide integration of a professional learning management system, Cornerstone, will have...
  – Benefits for the whole system, such as improved communication channels
  – Benefits for colleges, such as improved assigning, tracking, and reporting of professional development.
  – Benefits for individual employees, such as one integrated professional system that integrates local and systemwide opportunities.
System-wide PLN 3.0
Integration - Phase 1
