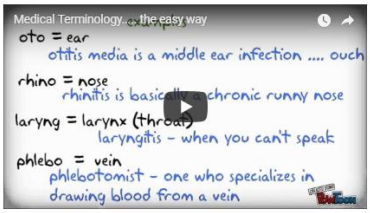
Making movies a learning experience

Medical Terminology Practice

This practice will give experience hearing and writing medical terms. Watch the video below - you may start/stop/replay as needed - and from the lesson in the video enter as many compound or complete terms using the prefix+root+suffix model as you can come up with in Answer Garden. The idea here is as a class to come up with as many medical terms as we can to build our word cloud. Don't repeat words in your entry, the idea is to build as many different words as many times from individual students. As a word is entered in will grow in size in the word cloud.



Go here to Answer Garden to enter your medical terms - opens in a new window for your convenience.

This assignment will close in three days on xx/xx/xxxx
